

About Trendsetter Electronics

Trendsetter Electronics is a Woman Owned Small Business, ISO Certified, franchised distributor of active, passive, electro-mechanical, and interconnect electronics components. Trendsetter specializes in High Temperature, High Reliability, High Precision components to meet the demanding needs of Military, Space, Avionics, Instrumentation and Extreme Environments.

Certifications

- Woman Owned Small Business • SBA/SAM (CCR) • WBENC Certificate:236992•
- ISO 9001:2015 Certification:14620 • AS9120 In Process•

Market Focus

Mil/Aero

- Full line of Mil QPL/Certified Components
- EOL/DMS Management and Mitigation
- Solutions for: COTS, COTS+, MIL, Custom

Extreme Temperature Applications

- High Temp / High Rel components
- Power Storage Solutions
- Power Conversion
- Green Energy Systems and Solutions

Instrumentation

- High Precision Solutions
- Tolerances and specs to meet your needs

Global Footprint

The need for Reliability, excellent Value and high Precision components knows no language barrier or distance. Trendsetter is uniquely suited to service those needs through a global sales force, with a record of providing cutting edge technologies and superior customer service.

Supported Technologies

AC-DC/DC-DC Converters	Inductors**	RF Components**
Audio	Memory**	Semiconductors**
Cable Glands**	Memory Modules**	Silicon on Insulator ICs**
Capacitors**	Modules**	Terminal Blocks
Connectors**	Networks**	Thermal Protection**
Delay Lines**	Opto/LEDs/LCDs	Thermistors
Die	Power Supplies	Transformers**
Diodes**	Processors**	Transistors**
Diode Arrays**	Rectifiers**	Voltage Regulators**
Filters**	Resistors**	

**High Temperature Product Lines
